Chinese billionaire Jack Ma, the co-founder of the online retail giant Alibaba, said he is donating 500,000 testing kits and 1 million masks to the United States to fight the spread of coronavirus.

????????????????????????????

The China-made protective gear and test kits took off from Shanghai's airport in a chartered cargo plane Monday morning, and will be handed over to the US Center for Disease Control and Prevention (CDC) when they arrive.

Just because you say "no offense" doesn't mean you get a pass for an offensive comment. Just don't use them, get sick and move on

Africa can be one step ahead of the coronavirus. To each of the 54 African countries, we will donate 20,000 test kits, 100,000 masks and 1,000 medical use protective suits and face shields. Thank you @PMEthiopia @AbiyAhmedAli for your support.

Africa can be one step ahead of the virus.

We cannot ignore the potential risk to Africa and assume this continent of 1.3 billion people will blissfully escape the crisis. The world cannot afford the unthinkable consequences of a COVID-19 pandemic in Africa.

We can take precautions now and get prepared ahead of time, as Africa can benefit from the experience and lessons from other countries that were earlier hit hard by the virus.

??

The Jack Ma Foundation and Alibaba Foundation have donated much-needed materials to regions suffering in the epidemic over the past few weeks, including Japan, South Korea, Italy, Iran and Spain, according to a tweet from the Jack Ma Foundation on Friday.

??

Ma said the outbreak presents "a huge challenge to all humankind in a globalized world," and that he has drawn from his own country's experience that quick and accurate testing as well as protective equipment for medical personnel are most effective in preventing the spread of the virus.

??

The past two months show us that if we take it very seriously and are proactive, we are more than capable of containing the virus.

??

Now it is as if we were all living in the same forest on fire. As members of the global community, it would be irresponsible of us to sit on the fence, panic, ignore facts or fail to act. We need to take action now!

???!
